Adobe Photoshop

About Me

I am a passionate and hardworking computer science student at The University of Hong Kong who has acquired fundamental knowledge about programming. I am quite comfortable in writing python, c++, html, and css. Over the last summer break, I have also obtained basic proficiency in developing web application through learning from the Coursera platform. Additionally, I have also had various experience in making graphic design and animation using photoshop, especially after being appointed as the marketing head for Hackathon Society.

Education

◇ **The University of Hong Kong**
